

Village of Penn Yan

Application for Minor Subdivision Review

Planning Board meetings are held on the first Monday of the month at 7:00 PM in the Village Hall, 111 Elm Street. The application submission deadline is the 1st Thursday of the previous month.

The application fee is \$150. All legal and engineering costs incurred by the Village of Penn Yan will be billed to the applicant. The fee and costs apply to all applications.

All subdivisions will require a surety bond to cover infrastructure improvements in the event the project is not completed.

Include with this application a completed State Environmental Assessment Form, Part 1 only.

See Village Code 176. Subdivision of Land

Minor Subdivision Map Requirement Checklist

All items from the checklist below are required at the time an application for a minor subdivision review is submitted.

- 9 copies of map (Scale (1" = 100' not more than 34" x 44") AND one (1) pdf, if available).
- Name and address of owner and sub-divider.
- Name and address of Engineer along with the date.
- Written and clear statement of sub-divider's intent.
- North arrow.
- Location map 3" x 3".
- Tax map with proposed subdivision outlined.
- Owners of adjacent lands.
- Graphic scale.
- Existing site features.
- Lots numbered.
- Proposed street lines.
- Field survey of boundary lines of proposed lots.
- Covenants, easements or deed restrictions affecting the proposed subdivision.
- Aerial photograph with proposed subdivision outlined (scale 1' = 1,000' or larger).
- Ground contours for the parcel and adjoining parcels (5' intervals).
- Pertinent topographic features within the parcel and on adjoining parcels.
- Location in relation to flood plain or wetlands.
- If proposal is within 100-year flood plain, it must be reviewed by the Engineer for the Town and by Department of Environmental Conservation.
- Proposed source of water supply (i.e. public or well).
- Nearest hydrant.
- Location of wells. If no well, supply data of wells on adjoining parcels as to depth, yield, portability and chemical analysis.
- Drainage study map with proposed storm water run-off.
- One test hole (min. 8' deep), 1 perk test for each ten (10) acres of the proposed development. (Tests must be certified by a Licensed Engineer P.E., report submitted).
- Method of sewage disposal.
- Existing septic system (Certification by Engineer that system is in compliance with the Board of Health Regulations and functioning properly).
- Features to be retained.
- Features to be removed.
- Adjacent roads, pavement, ditches, right of way.
- Driveways.
- Zoning districts outlined within the parcel.
- Engineer's seal and signature.
- Surveyor's seal and signature.
- Provide 3" x 5" bloc on right side of plan for Village use.
- If developing in phases, shown anticipated phases and a time schedule.
- Engineer's preliminary report on soils and ground water conditions.
- Site distances from access point.
- State Environmental Quality Review.
