

Energy Efficient Rebates

To receive your rebate without delay, fill out the other side of this form completely and mail it to the address below, with:

- A copy of your dated sales receipt (**application must be submitted within 6 months of appliance purchase**)
- A copy of your recent electric bill
- Sufficient ENERGY STAR® product documentation is required (where applicable)
- For heat pump water heaters, energy factor documentation; for thermostats, documentation of make and model

Mail completed form and items listed above to:
IEEP
P.O. Box 2489
Syracuse NY 13220-2489

Please *do not* send this form with your utility bill payment

General Terms and Conditions:

The IEEP may choose to inspect locations to verify satisfactory completion of the projects, and to measure and verify energy savings. Such inspections will be made at a time convenient to the applicant, with advanced notice to the applicant. Misrepresentation of installation location or measure eligibility may result in forfeiture of the incentive award.

Customers are responsible for any such tax implications associated with reimbursement. The IEEP is not responsible for any tax consequences associated with any payments. The IEEP assumes no responsibility for performance of equipment and equipment warranty. The equipment must be purchased new and installed within the member utility's franchise service area within six months of receipt purchase date.

The customer relieves the IEEP of any and all liability associated with this project. The IEEP reserves the right in its sole discretion to terminate or modify this program at any time.

Presented by your local municipal electric utility and the

INDEPENDENT ENERGY EFFICIENCY PROGRAM IEEP

Here are more energy and money saving ideas!

Switch to light-emitting diode (LED) bulbs.

Available anywhere "old fashioned" lightbulbs are sold, ENERGY STAR® LEDs use 85% less energy and last fifty times longer than standard incandescent bulbs. LED energy savings are greatest in light fixtures that are used at least 15 minutes at a time or several hours a day.

Your municipal electric utility can recommend where and how to install LEDs. They also provide a convenient place to turn in old, spent CFLs for safe recycling.

"Tame the Refrigerator Monster" and earn \$75!

When refrigerators, freezers and air conditioners are recycled, 98% of their materials are reused, and harmful refrigerants are removed in an environmentally-safe manner. Don't just put these old appliances out to the curb—protect the environment by recycling them, and earn a \$75 rebate for each one.

Contact your municipal electric utility, who is equipped to remove them from your address and dispose of them properly.

Appliances to be recycled must be in working order (cold and operational).

Contact your local municipal electric utility for more information about the offers outlined in this brochure.

Energy Efficiency REBATES

from your local municipal electric utility

and the Independent Energy Efficiency Program

Clothes Washers & Dryers

Refrigerators, Freezers

Air Conditioners

Dehumidifiers

Dishwashers

Programmable Thermostats

Ceiling Fans

Windows

Heat Pump Water Heaters

Take advantage of rebates offered by your municipal electric utility—and save money each month on your electric bills!

\$100 Rebate: Clothes Washers

Receive a \$100 rebate for purchasing an ENERGY STAR® qualified clothes washer. ENERGY STAR® washers use on average 43% less energy and 75% less water than conventional models.

\$75 Rebate: Clothes Dryers

Receive a \$75 rebate for purchasing an ENERGY STAR® qualified clothes dryer.

\$75 Rebate: Refrigerator-Freezers

Receive a \$75 rebate for purchasing an ENERGY STAR® qualified refrigerator-freezer. ENERGY STAR® refrigerators use 20% less energy.

Receive a \$75 rebate for purchasing an ENERGY STAR® qualified chest or upright freezer.

\$50 Rebate: Air Conditioners

Receive a \$50 rebate for purchasing an ENERGY STAR® qualified room (window-mounted) air conditioner. ENERGY STAR® room air conditioners are 10% more efficient than conventional units.

Receive a \$50 per ton rebate for ENERGY STAR® qualified central air conditioning units.

\$50 Rebate: Dishwashers

Receive a \$50 rebate for purchasing an ENERGY STAR® qualified dishwasher. ENERGY STAR® qualified models are, on average, 10% more energy efficient than non-qualified models.

\$30 Rebate: Dehumidifiers

Receive a \$30 rebate for purchasing an ENERGY STAR® qualified dehumidifier. ENERGY STAR® dehumidifiers use 10-20% less energy than similarly-sized units.

\$25 Rebate: Windows

Receive a \$25 rebate for purchasing an ENERGY STAR® window. Applicant must have electric heat to qualify for this rebate.

\$25 Rebate: Ceiling Fans

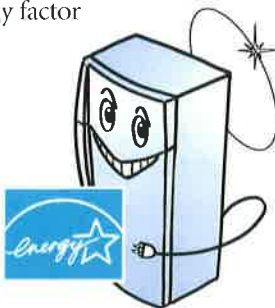

Receive a \$25 rebate for purchasing an ENERGY STAR® ceiling fan. ENERGY STAR® qualified ceiling fans with lights are over 50% more efficient than conventional fan/light units.

\$10 Rebate: Programmable Thermostats

Receive a \$10 rebate for purchasing a programmable thermostat. Homeowners can save about \$180 a year by properly setting their programmable thermostats.

\$400 Rebate Heat Pump Water Heaters

Receive a \$400 rebate. Energy factor must be 2.0 or greater.

Look for the ENERGY STAR® label when shopping for your new energy-saving appliances.
